ScienceLogic

Bootstrap Your AIOps Journey in 90 Days

We know what it takes to transform IT and elevate your operations to go beyond just managing technology and enabling your teams to focus on improving business service reliability.

As your trusted advisor, ScienceLogic will accelerate your journey to AIOps. Working together we can build the right starting point for your long-term operational success with improved efficiency and productivity.

Reduced Manual Effort

Improved Availability

Improved actionable insights

Dramatically reduced event noise

Enable tools consolidation

Prepare for upstream data integration

Our Approach

The SL1 SaaS platform is designed to quickly and efficiently deliver visibility across your IT estate.

In just 90 days, we will rapidly assess and understand your monitoring, visibility, and tuning requirements for AIOps implementation.

AIOps Foundation

This foundational service works through the 90-day checklist, focusing on the building blocks of your IT estate, including:

· Network

· Compute

· Cloud

· Storage

We get you started on your journey quickly and effectively. Working together, we will lay a stable foundation for long-term success.
