

# Skylar AI

## Top Reasons to Choose ScienceLogic

### Intelligence That Works the Way the Business Operates

Skylar AI interprets signals through a service lens, revealing how events, dependencies, and performance issues impact real outcomes. Leaders gain a continuous view of business health, supported by insights that reflect how their organization actually runs.

**Business value:** Clearer decisions, stronger alignment, and fewer surprises.

### Predictive Insight That Strengthens Reliability

Always-on anomaly detection identifies emerging risks before they disrupt services. Teams can anticipate issues earlier, intervene sooner, and preserve continuity across the business.

**Business value:** Higher uptime, greater resilience, and more predictable performance.

### Rapid Root Cause Understanding to Accelerate Recovery

Skylar AI cuts through noise and complexity to pinpoint the most likely source of a problem. Clear, contextual explanations help teams move directly to resolution instead of spending time diagnosing.

**Business value:** Faster restoration, lower operational cost, and reduced impact of incidents.

### Data Exploration That Unlocks Strategic Insight

Integrated analytics turn raw telemetry into meaningful patterns and trends. Leaders can understand behaviors across services, uncover inefficiencies, and make decisions grounded in evidence rather than assumption.

**Business value:** Smarter investments, sharper prioritization, and clearer paths to optimization.

### Human-Centric Intelligence That Elevates Every Team

Plain-language summaries, intuitive visualizations, and persona-aligned insights give people at all experience levels the ability to engage with complex operational challenges. Expertise becomes more scalable and decision-making more consistent.

**Business value:** Higher team productivity, shorter onboarding, and a more confident, capable organization.
