

# Automation

## Top Reasons to Choose ScienceLogic

### Automation Built on Trusted Operational Context

Skyilar Automation grounds every workflow in accurate, correlated operational data so teams can act with confidence.

**Business value:** More precise automation, fewer errors, and stronger outcomes.

### Guided Intelligence that Accelerates Clarity and Action

MCP helps securely connect trusted operational context to AI-enabled tools and workflows.

**Business value:** Faster issue resolution and a more predictable service experience.

### Transform Manual, Repetitive Work Into Seamless Workflows

Turn routine triage, enrichment, categorization, notifications, and remediation into low-code/no-code workflows.

**Business value:** Faster issue resolution and a more predictable service experience.

### Closed-Loop Automation Across Your IT Ecosystem

Orchestrate action across ITSM, DevOps, cloud, and operations tools from signal to resolution.

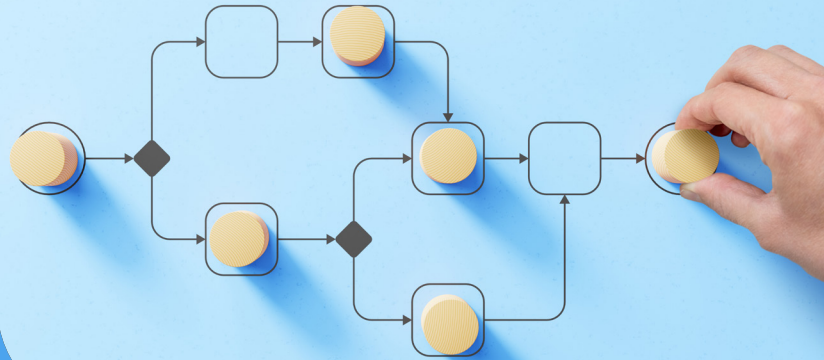

**Business value:** Higher service quality and greater operational stability.

### Empower Teams with Scalable Expertise

Automation captures and distributes best practices, elevating performance across teams with varying levels of experience.

**Business value:** A stronger, more capable operations organization.

### Service Reliability Backed by Smart Correlation

Correlate signals across hybrid infrastructure to understand service impact before automation acts.

**Business value:** Stronger reliability, better prioritization, and fewer blind spots.

### Governed Automation Teams Can Trust

Apply traceable, controlled workflows aligned to operational and compliance requirements.

**Business value:** Scale automation safely across teams and environments.

### Scalable Expertise Built Into Every Workflow

Capture proven operational practices in repeatable workflows every team can use.

**Business value:** Consistent execution with less reliance on tribal knowledge.

### Demonstrated Success Across Global Enterprises and MSPs

Customers consistently see meaningful operational gains, improved service performance, and streamlined workflows with ScienceLogic automation.

**Business value:** Proven impact that supports long-term transformation.

### A Unified Platform That Advances Your Entire Operating Model

ScienceLogic integrates visibility, intelligence, and automation into one connected ecosystem.

**Business value:** A more adaptive, resilient, and future-ready enterprise.
